

## CITY OF PITTSFIELD

DEPARTMENT OF PUBLIC UTILITIES, CITY HALL, 70 ALLEN STREET, PITTSFIELD, MA 01201 413-499-9330

June 8, 2015

To Whom It May Concern:

Carlow & Zepka Construction Inc. has provided a variety of construction services to the City of Pittsfield in recent years on several high profile and large scale projects. Their services have included site work at the City of Pittsfield's Waste Water Treatment Plan, the installation of utilities such as the running of fiber optic conduits from City Hall to the new 100 North Street offices, which also had to be completed under a very strict timeframe, as well as varying streetscape and landscape work. Carlow & Zepka has also been contracted by private property owners throughout the City to perform work which requires that applicable permits be procured from the City. Carlow & Zepka has an impeccable reputation for securing all the necessary permitting prior to the start of any of their projects and in complying with said permits/permitting.

The City has been very satisfied with Carlow & Zepka's work, responsiveness, and dedication to meeting all of our contracting needs.

Sincerely,

Bruce I. Collingwood, PE  
Commissioner of Public Services & Utilities
